Passcode: Ex. 6 Personal Privacy (PP)

We are really looking to working with you tomorrow on our Key Regulatory Updates Americas virtual conference. Thank you so much for the time taken to prepare your presentations in advance, this is very much appreciated.

Attendee access

You should have received an email from my colleague Rose on Monday which contains your access links to attend the conference as an attendee - please do feel free to join at any stage when you are not speaking to enjoy and interact with the other presentations, including catching up on the sessions from earlier this week. We do ask that you close or mute the main conference tab for your speaking session - as it can become super distracting due to a 15 second delay. If this email did not reach you, please let me know and I will resend.

Joining live for your Q&A Panel

In terms of your 'live' involvement at the event, you will have received a calendar invitation from me inviting you to a Speaker Call - this has the zoom link to use. If you did not receive this invitation, please do let me know as soon as possible and I will resend. If you click to join the call and there is a message saying 'please wait for the host to start this call' or a zoom waiting room - it is because the previous session is still running - keep the window open and we will add you as soon as it is time.

Meet the moderators

I am really happy to be able to introduce you to our day 3 moderators:

Session 1: US Federal and State Level Regulatory Updates

Rose Passarella, Senior Manager, Regulatory, Chemicals, Intertek

Session 2: Regulatory Developments in Canada and Latin America

Dan Bastien, Associate Director, Chemical Group, Intertek

They are in CC, and there will also be plenty of time to chat and discuss content 'backstage' in our zoom calls at the event.

Virtual networking

Finally, I wanted to highlight again our virtual networking area - this is a new feature for our virtual events that we're really excited about - and the closest we can get to 'real' networking before we're able to meet in person again! We really encourage you to get involved either during the break or after your presentation, you can join a virtual table to take part in a video chat with other participants where you can also share your screen. There's also a chat function within your table, the room itself, or to individuals.

I would really appreciate it if you had any time during the conference to check it out, and it's live now in case you wanted to have a look in advance.

If you have any questions please do not hesitate to let me know! Email is the quickest way, or my cell number is Ex. 6 Personal Privacy (PP)

I am really looking forward to 'seeing' you at the event and thank you again for all your support.
